WHEN a newspaper maligns the administration, advocates party bolts, talks about corruption and gives other evident signs of having tried to be brought up by the powers that be and failed, the regular Democratic papers begin to quote copiously from its columns and always credit them the same way—thus for instance [From the Pittsburgh *Commercial—Radical*.

IMMEDIATELY after a Parisian wedding the party usually retire to the suburbs, where the *noce* is celebrated. A FUNNY man in Alexandria, Va., the other evening bade his wife and children goodby, telling them that he was going to kill himself. THE Portage Lake (L. S.) *Mining Gazette* of June 23, has the following copper mining news: The May product of the National Mine was 16 tons 586 pounds. Mine work at the Cliff Mine has been suspended, and the work of removing underground machinery, &c., is to commence. The month's product is 95 to 100 tons. The well known Manganese vein, at Copper Harbor, has lately been re-opened on the Clark property, with a large exhibit.

IF there is any good omen to be drawn from happy conjunctions of suggestive names, says a Philadelphia paper, Mr. Samuel J. Randall must look to his laurels in the First Congressional District. Last time he ran against Mr. Berry, and the result showed that things were not quite ripe for a Republican success. But now Mr. Huckel is in the field. Against such a combination as the Huckel-Berry movement, Mr. Randall does not stand a ghost of a chance.

THE principal product of Styria is iron. A tradition of long standing among the natives relates that when the Barbarians from the regions north of the Danube drove the Romans from Styria, the Genius of the Mountains appeared to the conquerors, and said: "Take your choice; will you have gold mines for a year, silver for twenty years, or iron forever!" The wise ancestors of the Styrians, who had just begun to appreciate the relative value of the precious metals, at once decided to accept iron forever.

THERE is promise of a lively time in the fishing interest along the coast of Maine, as the season for taking menhaden approaches. The owners of nets are seeking to have the State law enforced which prohibits seining within three miles of shore, while the seiners, who have extensive works along the coast, do not propose to abandon them without a contest. They deny the power of the Legislature to restrict the use of the coast fisheries, which, they contend, are solely within the jurisdiction of Congress, and will test the constitutionality of the statute, with General Butler as counsel.

HENRIETTA WARD, a mulatto woman, was residing in Cincinnati, in 1835, as a free woman. A man named Ward and a woman named Boyd abducted her from Cincinnati to Kentucky, where she was held as a slave several months, was then sold to a Mississippi and finally to a Texas planter. She worked in Texas for fifteen years as a common field hand until emancipated by President Lincoln. She has brought suit against Ward and the woman Boyd for $20,000, as the value of her services for the fifteen years she was deprived of her liberty. If her case is correctly reported, we trust she will recover every cent of it.

SATURDAY last was a fatal day in Louisville. Mr. C. H. Wahl fell off the front platform of a car, which ran over his hips and killed him. This may be set down as another instance of the melancholly effects of abstinence from drink. Mr. Wahl had been a great drunkard, but for several days had "sworn off," which so unstrung his nerves that this fatal fall was the result. On the same day Mr. Alex. Gillmore rose very early in the morning and went to the cemetery, to sprinkle the flowers on his daughter's grave. It is supposed he was seized with appoplexy, as he was found with his head in a stream of water, dead. This is an instance of the calamitous effects of early rising, as if the hour had been later some aid would probably have come to the unfortunate victim of a double death. On the same day John Crouse, aged seventy-two and tired of life, took morphine, wrote a farewell letter to his wife, and then sat down and soothed his last moments with a pipe, with which in his mouth, upon which rested a smile, testifying to the excellence of the tobacco, his lifeless clay was found next morning. On Friday Mr. C. Kirch, troubled about his business, went head foremost into the river, and on Saturday the coroner's jury rendered a verdict in accordance with the facts. Also, on Saturday, a small colored boy, six years old, overcome by the weight of the literature of the period, as contained in a heavy book case which he pulled over on himself, departed this life.

### A QUESTION OF VERACITY.

[From the Sunday Dispatch, June 26th.]

We understand that there is a little "unpleasantness" in the *Commercial* office arising from the course of the paper in indorsing the Third Party movement, and the failure of the stockholders of late to realize anything from their investment. As report goes, a number of the stockholders repudiated altogether the action of Mr. Brigham in identifying the paper with the new movement, while, as regards the business management of the office, it is charged that it is non-paying because it is the interest of its managers to keep it so, in order to tire out the outside stockholders, and force them, as it were, to part with their stock at figures to suit the purpose of Brigham, Thompson & Co. As showing how the matter stands it is reported that a short time ago Mr Brigham had an interview with one of the stockholders, a well known business man of the city, whose name we can supply when required, and proposed to buy his stock from him. The gentleman replied he hadn't thought of selling, but asked him what he would give for it. Brigham replied $25 00 per share, providing he would take it out in advertising, etc. The gentleman, who knows more about the newspaper business than Messrs. Brigham and Thompson put together, having a tolerably fair idea of the "game" in hand, told the former that he would rather buy than sell on the terms proposed, and to show how little faith he had in the correctness of Mr. B's estimate of the value of the stock, he offered to purchase all the latter had in the paper at $100 00 per share, cash down! Here was a trap that Brother B. did not calculate upon, but without going into the details of his explanation why the paper was not making money, or, if making money, why the stockholders did not get a pull at the profits, suffice it to say that, though very anxious to buy at $25 00 he declined selling at $100 00—a fact which helped to open the other's eyes to the game being played by the "Ring," and the futility of expecting any return from his stock so long as the present clique hold a controlling interest in the paper. The present differences are likely to develop something more in this matter than we care to state just now, for we must not anticipate, and will possess ourselves in patience till the *denouement* is reached, be it through the courts or otherwise.

[From the Commercial, June 27th.]

There is not a particle of truth in what the Sunday *Dispatch* prints concerning the management of the *Commercial* in connection with the True Republican Movement.

[From Dispatch June 29.]

PHILADELPHIA, June 28.—My attention has just been directed to an obscure paragraph in the *Commercial* affecting to deny the truth of an article in the *Sunday Dispatch* touching the dissatisfaction of the *Commercial* stockholders with the business management of that paper, and exposing the scheme of Brigham, Thompson & Co's ring to get control of the stock of the concern at a price less than half its par value, and less than one-fourth the value placed upon it by the members of the ring themselves. Not having an opportunity to reply at length, I will here simply state that every word in the article alluded to was true. Mr. Brigham did try to get a certain number of the shares of the stock at twenty-five dollars per share, to be taken out in advertising, while he refused one hundred dollars a share cash for his own stock from the same party whom he thought to wheedle into selling, but the game wouldn't work and he didn't get the stock. That there may be no mistake about the matter, I may state without any breach of confidence, that the party over whose eyes he tried to draw the wool was Benj. Singerly, State Printer, from whom I myself had the statement, with the additional remark that Mr. Brigham said the stockholders would have to wait a long time before they could get anything out of the concern. In other words, he intimated pretty clearly that the programme laid down by the ring to secure the stock for themselves at a sacrifice to the owners, was to make the stockholders sick of their investment, and thus in a measure force them to sell at any figure the ring might choose to buy at. These are the plain facts, and however the *Commercial* managers may squirm at the exposure, they cannot be contradicted.

### Popularity of Steinway in Pittsburgh.

It is a significant fact that whether the times be good or whether they be bad, the sale of the Steinway Pianos are steadily on the increase. These instruments are in a fair way to absorb and swallow up the bulk of the piano trade of the country. During the war any rattle box in the shape of a piano found ready sale. Not so to-day, people who buy now a days want the best, full value received for their money, and hence the great preference for the Steinway manufacture. Among the many sold during the past week or two we find the following: Joseph Dilworth, Esq., a concert grand; Rev. James R. Mendenhall, of Washington, Pa., a Steinway upright; Sisters of Mercy, St. Aloysius' Academy, Loretto, a Steinway square grand; Charles Ackenheil, civil engineer, a Steinway square; Philip Mertz, Esq., a Steinway square; Joseph Abel, Esq., a Steinway square; James Hepburn, Esq., Wheeling, a Steinway square; M. L. Dillon, Esq., a Steinway square; Mrs. Wm. Nicol, McKeesport, a Steinway square; A. C. Hays, Esq., a Steinway square, and many others, all of which were purchased at the Piano warerooms of Messrs. H. Kleber & Bro., who are the exclusive and wholesale agents for the Steinway manufacture for Western Pennsylvania, Eastern Ohio and North western Virginia.

### Comfort for Octogenarians.

When you are eighty years old, good reader, you may soliloquise after this fashion:

"I have become very deaf. What a blessing! There is such a lot of silly talk I cannot hear—such scandals, etc.

"My eyes are failing. How fortunate! I do not see a tithe of the folly and wickedness that is going on around me. I am blind to faults that would provoke me to censure.

"I have lost my teeth, and my voice is not very laudable. Well, I find it is no use babbling to folks who won't listen, so I save my breath for better purposes. I don't show my teeth where I can't bite. I venture on no tough meat.

"My taste is not so discriminating as of yore; and the good is that I am the more easily satisfied, don't keep finding fault, am contented and thankful. A nice palate is a plague I have got rid of.

"My joints are rather stiff. Well, if they were ever so supple, I do not want to go to see the sights, hear concerts make speeches, nor carouse at least.

"I am not so strong as I was; but for what do I need to be stout? I am not going to wrestle or fight with anybody. My morals are generally improved.

"My brain is not so clear as in my younger days, therefore I am neither so hot-headed nor opinionated. I forget a thousand injuries."

### Congress Hall, Cape May.

Those who have visited Cape May this season go into ecstacies over the elegance and general good arrangements of the palatial "Congress Hall" hotel at Cape May, N. J., which is presided over by Mr. J. F. Cake. This mammoth new resort opened on June 1st, and erected on the site of the old homelike structure, has capacity to accommodate in the very best manner a regiment of guests. It is palatial in its appointments, furnished throughout in the most elegant and comfortable manner. Already a large number of guests for the season have taken rooms, and society there this season will be of the very highest order. Mr. Cake, the genial host, who by the way is largely spoken of as a candidate for Congress in the First New Jersey District, carefully looks after the comfort and enjoyment of his guests and is ably assisted by the old corps of clerks, whose politeness and attention made in past seasons Congress Hall so popular and pleasant.

(SECOND SESSION.)

### SENATE: The Tax-Tariff Bill Still Under Consideration. HOUSE: Senate Business Considered—Conference Report on the Currency Bill Rejected.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, June 29, 1870.

SENATE.

Mr. SHERMAN presented a memorial upon the importance of making a full appropriation for the Louisville canal according to the engineer's estimates. Referred to Committee on Commerce.

Mr. Cameron's motion to reconsider the Texas Pacific Railroad bill was defeated—15 to 31.

Mr. RICE, for Mr. Brownlow, introduced a bill to divide the State of Tennessee into two Judicial Districts.

The bill to authorize the Kansas Pacific Railroad to extend its railway and telegraph lines to El Paso, New Mexico, was considered.

Mr. DRAKE moved a substitute.

Upon the expiration of the morning hour, the bill was laid over, and the tax-tariff bill proceeded with.

The following provisions relating to insurance companies were inserted on recommendation of the Finance Committee:

And the tax upon dividends of insurance companies shall not be deemed due until such dividends are payable either in money or otherwise, and money returned by mutual insurance companies to their policy holders, and annual or semi-annual interest allowed or paid to depositors in savings banks or saving institutions, shall not be considered as dividends.

The paragraph making the duty on bituminous coal and shale fifty cents per ton of twenty-eight bushels, eighty pounds to the bushel, was debated and rejected—18 to 23, the rate remaining as under the present law.

The recommendations of the Committee specifying the following duties were agreed to:

On rough or unfinished grind stones one dollar and a half, and on finished grind stones two dollars per ton.

On free stone, sand stone, granite and all building or monumental stone, except marble, one dollar per ton.

On all sawed, dressed or polished marble thirty per cent. *ad valorem*, and in addition twenty-five cents per superficial square foot not exceeding two inches in thickness; ten cents per foot in addition to above rate for each inch in excess of two inches in thickness; all over six inches to be subjected to the duty now imposed upon marble blocks.

On hair cloth, known as hair seating, forty cents per square yard.

On all other manufactures of hair thirty per cent. *ad valorem*.

On aniline dyes and colors fifty cents per pound and thirty-five per cent *ad valorem*.

On buttons and dress ornaments, of which silk is the main part and no wool or worsted, fifty per cent. *ad valorem*.

On siliciat of soda or other alkalini siliciati, one-half cent per pound.

On sporting gun wads of all descriptions, thirty-five per cent. *ad valorem*.

On nickel twenty-three cents per pound.

On nickel of ide and alloy of nickel with copper fifteen cents per pound.

On live animals twenty-five per cent. *ad valorem*—free importations for breeding purposes to be limited to countries beyond the sea so as not to extend to Canada and Mexico.

The Committee recommended the striking out of increase of duty by the House on linseed and flaxseed oil to thirty cents per gallon.

Mr. SHERMAN said he disagreed with the majority of the Committee and advocated the retention of the rate fixed by the House.

Mr. BAYARD and others opposed the proposed rate as excessive increase upon an article of common household use.

The Senate refused to strike out the increased rate, yeas 19, nays 26.

The remaining paragraphs, making the duties on hemp seed, rope seed and other oil seeds, except linseed or flaxseed, one-half cent per pound, on the latter twenty cents per bushel of fifty-six pounds weight, on sesame seed and cotton seeds thirty cents per gallon, on sesame seed ten per cent. *ad valorem*, which the committee also proposed to strike out, were retained in the bill.

The amendments to retain the present duty of $2.50 per pound on opium and to reduce the duty on smoking opium to six dollars per ton were agreed to.

Morphia and all salts of morphia were continued at present rates.

The amendments to strike from the free list oxalic acid, sulphuric acid and ore or crude sulpharite of antimony, were agreed to.

The amendment to strike from the free list books, maps and charts specially imported in single copies and not for sale, of which no editions are printed in the United States, was read.

Mr. SUMNER opposed the amendment, regarding the duty on books as a tax on knowledge. He was in favor of free trade in books.

Mr. SHERMAN stated, as the unanimous opinion of the Finance Committee, that although the public libraries and educational institutions had this privilege under the law now, it would not be prudent to extend it indiscriminately, in view of the facilities for fraud to follow. The country would be flooded with foreign books at a less rate than American books, to the injury and possible ruin of our own trade. He read letters received by the committee from Appleton & Co., Harper & Bros., and other leading publishers, remonstrating against the provision.

The amendment was agreed to—yeas 27, nays 23.

At four o'clock the Senate went into executive session, and subsequently took a recess until evening.

*Evening Session*—The Senate resumed the consideration of the tax-tariff bill.

Amendments of the Finance Committee were agreed to striking from the free list rough diamonds and adding thereto chryolite.

The amendment to strike crude sulphur from the list was defeated—22 to 24.

The amendment authorizing, for two years from the passage of the act, the free importation under State authority of machinery and apparatus for steam towage in canals was agreed to.

Mr. HARRIS offered an amendment allowing for two years free importation of steam plow machinery, to be used in the cultivation of the soil. Agreed to.

The amendment to authorize the refunding of any excess of duty over rates fixed by the bill upon merchandise, upon which duties have been paid, remaining in warehouses at the time of the act going into effect, was adopted.

The bill having been gone through with, several additional amendments were proposed.

Mr. JOHNSON offered an amendment reducing the tax on snuff and various kinds of manufactured tobacco to sixteen cents per pound. Rejected.

A motion by Mr. SAWYER to strike out the duty on Bessemer steel rails gave rise to discussion, and without action upon it the Senate adjourned.

HOUSE OF REPRESENTATIVES.

The following Senate bills passed:

Amendatory of the act of July 27, 1868, to protect the rights of actual settlers on public lands.

To establish the Western Judicial District of Wisconsin.

To amend the act to establish and protect National cemeteries.

To regulate foreign and coasting trade on the north and north-western frontier of the United States.

To regulate the effect of a vote of thanks of Congress upon promotion in the navy.

In relation to certain unsold lands in the counties of Porter and Lake, Indiana.

To establish an additional land district in Kansas.

For the admission of photographs for exhibition free of duty.

Giving the consent of Congress to the reception of a certain bequest by the State of New Jersey, under the will of the late Edwin A. Stevens.

For the disposal of lands within Fort Ridgely Military Reservation, Minnesota.

Authorizing the construction of a bridge across the Arkansas river at Little Rock.

To amend the act of 1860 to carry into effect the provisions of treaties between the United States and China, Japan, Siam, Persia, and other countries, giving certain judicial powers to ministers and consuls and other functionaries of the United States.

To repeal certain sections of acts passed by the Territorial Legislature of Wyoming.

Mr. SCOFIELD, from the Conference Committee on the bill for the relief of certain officers of the navy, made a report striking out the second section of the bill, which referred to retired officers. The report was agreed to.

Mr. CHURCHILL, from the Committee on Elections, made a report in the Missouri contested election case, that Dyer, sitting member, was not entitled to a seat, and that Wm. F. Switzler, contestant, is. He gave notice he would call it up for action on Thursday week.

Mr. CESSNA presented the views of the minority, with opposite conclusions.

Mr. LOGAN offered a resolution directing the door-keeper retain in service during the recess the crippled soldiers now employed under him. Adopted.

The House resumed the consideration of the conference report on the currency bill.

Mr. JUDD gave notice he would move to reject the report, and have another Conference Committee appointed.

Mr. COBURN opposed the report, and argued that under it the people of the West were not going to get any redistribution within a reasonable time. He believed it would be better to put the bill off till next Congress, and then pass a general measure of redistribution, rather than take this measure of contraction, which directly tended to bring disaster on the country. There was no expansion which would require $54,000,000 of greenbacks to be kept as a reserve instead of forty-five millions of three-per-cents to be withdrawn, and provided only for an issue of forty-five millions of National Bank currency. It was therefore a measure of contraction in that respect, also in respect of the gold bank section.

Mr. JUDD also argued against the conference report, which he claimed settled the question against the desire of the House and against the best interests of the country. He asserted, if the report was adopted the currency would be contracted at least eighteen or twenty millions. Forty-five millions of greenbacks would have to replace the three per cent. certificates. That was just equal to the amount of additional National Bank currency allowed to be issued. But if this additional issue of twenty per cent. or nine millions, had to be held as reserve in greenbacks, so the amount locked up would be fifty-four millions. As to the gold bank section, he regarded it a *figment* of the brain. It would be only adding to the difficulties of the situation. They had now a currency of National Bank notes and greenbacks, and would throw on an additional kind of shinplasters, if members chose to call it so. He expressed the conviction that if this report were rejected, and a new conference committee appointed, the Senate would concur substantially in the provisions made by the House.

Mr. ARMSTONG expressed his belief that any plan looking to the contraction of the currency would be injurious to the business interests of the country, and regarded the conference report as a positive measure of contraction, at least to the amount of nine millions. He thought the wisest policy would be to reject the report, even though the bill should fail.

Mr. COX expressed the opinion that the measure was not much either of contraction or expansion. It might work a little contraction at first, but would produce expansion and explosion. It was a bill which satisfied neither the House nor anybody—neither contractionists nor expansionists. What Congress should do was to march boldly up to the measure of a return to gold and silver, as the President had recommended.

Mr. BURCHARD also condemned the conference report, particularly because the committee had abandoned the ninety-five million additional issue, which would have reached all States having less than their share of distribution of currency.

Mr. MORGAN also opposed the report as being a measure of contraction.

Mr. INGERSOLL thought it would hardly do when the people were asking Congress for bread to give them a stone, and he imagined the present proposition was no more nor less than that. He believed four-fifths of the people, if there could be a popular vote on the subject, would vote in favor of an increase of currency, and that, too, in the shape of greenbacks rather than National Bank notes.

Mr. TOWNSEND also opposed the report, because he looked upon it as a measure of expansion.

Mr. BENTON characterized as most arrant nonsense the talk in favor of inflation and expansion. He was twitted and badgered considerably by Messrs. Eldridge and Ingersoll as to his own views about greenbacks, but was amusingly successful in keeping those views to himself.

Mr. JONEL, Ky., advocated the conference report, and stated facts showing the propriety of a redistribution of currency. He was afraid, unless this conference report was agreed to, the bill would fail. He approved the report, not because it met to his views to full extent, but it did so in some measure, and he beleived it was the best the House could get.

Mr. GARFIELD closed the discussion by a speech in advocacy of the report. As to the point that the report was a measure of contraction, he called attention to a remarkable spectacle presented in the House by two exceedingly able and intelligent Republicans from Pennsylvania, both of them intimately connected with the National banking system. One of them (Mr. Armstrong) had made a speech opposing the report, because it was a measure of contraction. The other (Mr. Townsend) had made a speech opposing it as a measure of inflation. That was as high a compliment as the report could have, because it was clearly proved by one that it was not contraction and by the other that it was not inflation, and that was just what the conferees of the House and Senate had expected to reach. Those gentlemen who had figured up a contraction in the bill ignored the fact that in starting the additional forty-five millions of currency in places now destitute, the credit business of the country would be increased by the whole volume of checks and drafts issued from hand to hand, in order to prevent contraction being worked by the withdrawal of three per cents, which were always liable to be presented for redemption. The Conference Committee proposed to have an additional issue of forty-five millions of National bank currency, which would be distributed as follows: Virginia $4,096,883, West Virginia $381,494, Illinois $899,689, Michigan $655,680, Wisconsin $1,765,026, Iowa $567,822, Kansas $145,601, Missouri $2,500,469, Kentucky $3,876,321, Tennessee $3,609,982, Louisiana $4,521,223, Mississippi $2,483,574, Nebraska $5,480, Georgia $3,900,638, North Carolina $3,415,696, South Carolina $3,514,210, Alabama $3,401,185, Oregon $134,501, Texas $1,663,581, Arkansas $1,212,994, Utah $48,613, California $1,431,230, Florida $455,392, Dakota $12,868, New Mexico $231,627, and Washington Territory $39,519.

Mr. BUTLER, of Massachusetts, asked Mr. Garfield how he expected members to vote for the report, if two able and experienced gentlemen like those from Penna., could not agree as to what it meant?

Mr. GARFIELD replied, if the gentleman from Massachusetts did not understand, he need not vote for it.

Mr. BUTLER said he did not mean to.

Mr. GARFIELD did not expect one who talked of gold and silver as a relic of financial barbarism would vote for such bill. He added it would square better with his own notions to let those western men who opposed it fight their own battles. If they did not take this bill they would, in his judgment, get nothing. He ridiculed Mr. Ingersoll's notions about coin paper dollars and cheap kind of currency, illustrating the latter idea by supposing a currency of stamped cabbage leaves.

Mr. INGERSOLL retorted he preferred cabbage leaves to cabbage heads on that question.

The vote was then taken on agreeing to the Conference report, and it was rejected—yeas 53, nays 132.

On motion of Mr. JUDD another Conference Committee was ordered.

Mr. PAINE asked that Tuesday and Wednesday of next week be assigned to the Committee on Elections, remarking the House might in that time dispose of ten, fifteen or twenty contested election cases.

Objection was made.

Mr. PAINE gave notice he would call up the cases as questions of privilege.

The Speaker intimated they would be open to question whether the House would consider them.

Mr. SARGENT, from the Committee on Appropriations, reported back the Senate amendments to the Indian appropriation bill and proceeded to explain them to the House with the action recommended by the Committee.

Adjourned.

### The Railroad War in Court—Midland Railroad—Mandamus Issued in the Brooklyn Park Case—Hot Weather.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, June 29, 1870.

THE RAILROAD WAR IN COURT.

In the Supreme Court to-day the case of the Erie Railway Company vs. L. S. Co. & N. Y. C. and Hudson River Company came up on the order to show cause why an injunction should not be granted. Mr. Fairchild, appearing for the Central R. R., read in opposition his own affidavit, to the effect that the foundation of action was an agreement nineteen years old between the four companies, which had ceased to exist. None of the present managers of the defendants were connected with the original corporation, and the books and papers of these old corporators had been packed up and laid aside and are scattered from Chicago to Albany; that the Erie Company has made contracts inconsistent with this contract, and for ten years conducted their business in violation of its provisions; that the defendants would have, to meet this motion, to look into these books and papers and obtain proof of plaintiff's conduct for that time, and that sixty days would be none too much for such preparation; that the injunction will require the restoration of over ninety miles of road to a gauge which had been abandoned since the making of this contract by the railroad managers of the west formerly using it and by the owners of this ninety miles abandoned with the knowledge and assent of the plaintiff; such injunction would compel four hundred thousand passengers a year to change cars at Buffalo and the transfer of ten million tons of freight a year at that point and a second change of the same at the Pennsylvania State line, involving delay and expense to the public much greater every year than the three million dollars damages claimed by the plaintiff, using an exceptional gauge and only aid the Pennsylvania Central and Baltimore & Ohio Roads. Mr. Sherman, for the Erie Railway Company, was willing there should be an adjournment. After considerable discussion Mr. Sherman submitted the order adjourning, but meantime enjoining the Lake Shore from selling through tickets in which the New York Central is designated as the road to be traveled in place of the Erie, enjoining it from withholding the same co-operation in regard to forwarding freight destined for the Erie road that they gave to freight intended for other roads, and enjoining them from making any rebate on freight intended for the Central. The court said it would take the papers and if there was anything improper in the order would strike it out.

THE MIDLAND RAILROAD.

Ex-Lieutenant Governor Littlejohn addressed the Produce Exchange to-day in favor and explanation of the Midland Railroad, which he said could be finished in eighteen months, and for $1,250,000 more, which amount, the State having refused its aid, he wished to raise among the business men of the city. The Exchange adopted favorable resolutions urging subscriptions by citizens.

MANDAMUS ISSUED.

SAN DOMINGO QUESTION.

In the Senate executive session to-day an hour was spent on the San Domingo treaty, Mr. Morrill, of Vermont, reading a speech in opposition to it. FLAG FOR CONGRESS.

Joseph Neaman, of San Francisco, has arrived with the magnificent flag made of California silk, which he intends to present in the name of that State to Congress. It was displayed to-day in the marble room of the Senate where it attracted great attention on account of its size and beauty, as well as being the first American flag ever made of native silk.

### Appearance of Hostile Bands at Various Points—Pursuit of Savages in Wyoming—Red Cloud and Tribe on a Buffalo Hunt.

[By Telegraph to the Pittsburgh Gazette.]

CHICAGO, June 29.—Reports have been received at Lieut. Gen. Sheridan's headquarters in this city that bands of hostile Indians have appeared within a few days at Wood River Station, Medicine Bow, Rawlins, Como and other points. In some instances United States troops are in pursuit of them.

CHEYENNE, June 29.—Lieut. Young and command returned to Rawlins last evening, the Indians having successfully retreated under cover of the night. The supposed Indian loss in killed and wounded is twenty-one. Sergeant Kessner, of the cavalry, was wounded on the hip.

A telegram from Fort Fetterman says Indians killed and scalped a Mexican named Picayune yesterday near that post and ran off his team. It is reported also that they killed two squaws who were living with the whites.

A report from Fort Laramie says Red Cloud and his tribe have gone buffalo hunting and will be gone a week or two, when they will come back, trade and talk peace.

—At a meeting of the Committee of Arrangements for the Woolen Exhibition to be held at Indianapolis, August 2nd, a committee was appointed to make suitable accommodations for the press at large during the exhibition. The use of the Skating Rink has been procured for the exhibition. From present indications it will be a complete success. All the railroads have agreed to transport visitors at half fare and articles for exhibition free.

—The New York *Times'* money article says: At the end of the fiscal year, on Thursday next, June 30th, it will be found that the Treasury has received $12,500,000 in custom duties, and the country has consumed foreign goods to the value of about $28,000,000 or $30,000,000 in excess of last year, and that we have exported at least $100,000,000 worth more of domestic produce, gold values, in the settlement of our foreign balances than last year.

—Resolutions have been passed by the Senate of the Republic of Colombia, instructing the government to propose an alliance with the Republic of Spanish America, the object being to effect the liberation of Cuba and Porto Rico. Should Spain refuse to withdraw her troops from these islands, the allies are to declare war against her and aid the Cubans in achieving their independence.

—Since President Grant's message on affairs in Cuba, the Spanish papers in Havana have indulged in an extremely threatening tone toward the United States, urging Spain to require the dissolution of the Cuban Juntas in New York, New Orleans and other American cities, and the seizure and delivery to Spain of the steamer Upton.

—A special train with about one hundred prominent citizens of Decatur, Illinois, and towns along the Decatur and East St. Louis Railroad, arrived at St. Louis yesterday afternoon and returned in the evening. The road is completed between the two points, but will not be opened for business for a few weeks yet.

—The capture of the Upton's second expedition is attributed to the blundering of the Cuban Junta in New York. A mass of correspondence fell into the hands of the Spaniards, giving them important information of the designs of the Cubans in the United States.

CRAWFORD COUNTY REPUBLICANS, after thoroughly testing its merits, have abandoned the Crawford system of nomination and returned to the delegate plan.

DID the oil statistician of the Titusville *Herald*, furnish the figures to G. K. A. to show the increased production of Republican votes in that town? The market was bulled to no purpose that time.

THOSE WHO DESIRE to know where "rings" are maintained in all their glory, and "honesty" reigns pure and incorruptible, will please read the statement of the question of veracity between the *Dispatch* and *Commercial*, which will be found on the first page of to-day's issue. We have always been in favor of reform; but we had no idea it was so much needed.

THE following is the official result of the Crawford county primary election, held last Monday: Congress—Colonel S. B. Dick, 4,059; Van Horn, 1,414. Senator—G. B. Delamater, 3,505; Geo. K. Anderson, 3,033. President Judge—Joshua Douglass, 2,615; Henderson, 1,987; Richmond, 1,935. Dr. Gray and Dr. Ashley were nominated for Assembly. Commissioner—P. A. Gage. Auditor—F. H. Bemis.

THE FLAG, barren of enough stars to represent the States of the Union, used by the Andrew Johnsonites at one time, has been resurrected, and with a flaunting lie hung to its bottom, has been thrown to the breeze on Smithfield street, from the windows of the "*True* Republican Headquarters." History repeats itself. This same old flag hanging from the quarters occupied by the defunct *Republic* where the ruin of the Republican party was oft plotted in days gone by, is again used by the self-same patriots, floats in the self-same place and hides in its shadow the self-same plotting mercenaries who clung tenaciously to Andrew Johnson till he was laid forever in a political grave.

THE SUCCESS of Mr. Delemater over Mr. Anderson in Crawford county renders his nomination certain, as Erie concedes it on the principle of rotation. Mr. D.'s majority was 472 and his strength came from the country districts where ballot box stuffing and fraud are not practiced. Although Mr. Anderson has full cause for mortification in his defeat, still it is not ungenerous to inquire of his organ, the Titusville *Herald*, how he *really did* develop such extraordinary strength in that city, polling 480 votes more than there were Republicans entitled to vote. Of course, there could have been no fraud used, for G. K. A. was the reform candidate, who, had he been elected, was to have inaugurated honesty in the Legislature.

"HALLOO, PAT," said a native of the sweet Isle of Erin a few days since, 'did you see the call for a new political organization, to be called the Independent Party?" "Yes, what of it?" "Och! nothing much. I only want you to tell me the meaning of the word *Independent*." "Bad manners to your ignorance, did you drop all the education you got into the Atlantic as you came over the sea? Do you not know the meaning of the word independent? Sure every school boy knows that *Independent*, as applied to those discontented and disgusted politicians to whom the Republicans refused to give office, and are now attempting to organize a new party because they could not get all the spoils, means '*not to be depended upon*.'"

Our Irish friend seems to know the meaning of terms in their particular application. Crawford county has practically given the same definition in rejecting the claims of Geo. K. Anderson to the State Senate, although he was endorsed by the *Commercial* of this city, and a few pseudo reformers in Allegheny county.

THE LIGHTNING has been terribly aggressive in this locality during the past four weeks. It seems to have a penchant for striking low, passing the high places and coming down literally among the people to work death, damage and destruction. The terrible conflagration of Friday, whereby one precious life was lost and many hundred thousand dollars' worth of property destroyed, is charged to the wrath of the subtle fluid. The family and friends of Mr. Foster, who lost his life in the quickly enkindled flames, have the sympathy of the entire community in this their dark hour of sorrow and affliction. The energetic business men, too, who at one flash lost fortunes slowly gathered together, have the condolence of their fellow-citizens. Dr. H. W. C. Tweddle especially, of the latter class, receives the heartiest measure of sympathy, for on several occasions in the past his labor of years was swept away by the dread element, and now another stroke of misfortune is brought to his doors at a time when his fortune was being again built up successfully. But men of his stamp, philosophy and force of character, will not long sit idle with waste and ruin, but, Phoenix-like, will rise again and again with new life and new energy.

## "GRATIFYING PROGRESS."

The Pittsburgh *Commercial* is in the hourly receipt of letters from different parts of the State, some in letter-press and some in manuscript, and most of which, it is very uncharitably alleged, originate in its own office, conveying the gladsome intelligence that the work of disruption in the Republican party is making most "gratifying progress" everywhere. If such intelligence were reliable, we have not a doubt that it would be most "gratifying" to the *Commercial*, and the very few of its stockholders and selfish supporters, who are engaged in a vain attempt to carry discontent and division into the Republican camps. But unfortunately for them, the gratifying intelligence has commenced to pour in that the work of reform is going bravely and successfully on, and the people, wherever they have spoken, have administered a withering and scathing rebuke to the *Commercial* disruptionists.

The honest yeomanry of Crawford county have uttered no uncertain sound on the subject of reform in repudiating the claims of Mr. Geo. K. Anderson to a seat in the State Senate. This is the same gentleman whose "checks" were distributed so freely last winter at Harrisburg, and aided by means which we will not characterize here, to carry through the bolters from the party.

All his unscrupulous acts were fully endorsed by the *Commercial*, which has labored hard to secure his nomination as State Senator, in opposition to that pure and honest patriot, Mr. Delemater. Both Mr. Anderson and his Pittsburgh ally have been scornfully rejected by the Republicans of Crawford county, who, in nominating Mr. Delemater, have declared that they will give no quarter to any man who will even attempt to corrupt and divide the party.

It is not difficult to procure letter writers, who for a small consideration will misrepresent and traduce honest men and an honest party. But one act speaks louder than columns of misrepresentation written to order. Crawford county by her own act has declared that disruption cannot be effected, and that the work of reform is making such progress as must fill the heart of every true Republican with the profoundest gratitude.

The first gun has been fired, and has filled the ranks of the bolters with dismay. Melancholy and gloom were depicted on their every face yesterday when they heard that the work of reform was making most "gratifying progress" in Crawford county.

## OUR COUNCILS AND PEOPLE VILIFIED.

We call the especial attention of the members of our City Council to the following paragraph, which we clip from the Pittsburgh *Commercial* of yesterday:

> We go a step higher and look at the City Council. Honest men shudder at the name, for it is associated with nothing honorable and everything dishonorable. Such a conglomeration of *mis* representatives of the people is seldom seen outside of our State Legislature. Huge and daring frauds are perpetrated upon our citizens at almost every meeting.

What do our City Fathers think of this? In neither branch of the city councils can there be found *one honest* man! for they are "*associated with nothing honorable, and every thing dishonorable.*" Here there is not a single exception made. Not one righteous man can be found for whose sake the city will be spared. Sodom and Gomorrah were nothing in wickedness when compared with Pittsburgh! Shall we be destroyed with fire and "brimstone" from—the corner?

We request every Councilman to cut out the above paragraph and preserve it till next January, when he will be solicited to extend municipal favors to the same sheet that now traduces him as dishonest and honorable!

We protest against the *Commercial* making no exception in favor of our worthy friend, David Kirk, and his equally honest co-adjutors, who have hitherto sworn by that paper. A railing and heartless accusation like this must not be raised against him. We earnestly protest.

Not satisfied with casting obloquy and reproach upon our City Fathers, the *Commercial* traduces our whole people in the following style:

> "And the people have hitherto looked stupidly on—looking on as though some horrid nightmare possessed them; looking on while their hands have been tied, and they cast into hopeless insolvency by these raids of the 'Ring' upon the public money."

Think of this, Pittsburghers! You are denounced as a stupid people, seized with the "*night mare* and *cast into hopeless insolvency*." Your creditors will pounce upon you immediately, for one of your own papers declares you are in a state of hopeless insolvency! The last feather that has broken your back is $700 paid to this same veracious sheet for publishing the *Record* of your dishonest and fraudulent Councilmen. What city would refuse to pay the paltry sum of $700 *per annum* for the pleasure of being held up to the world as dishonest, dishonorable, stupid and insolvent?

## SUMMER ASYLUMS.

The days of the dogs are upon us. The sun, regardless of humanity, has broken through the bounds of decorum and pours his scorching rays down upon the earth without pity, burning the skin and stewing the brains of helpless mankind, sweltering in the cities. Quicksilver is the topic of the hour, and business men who three months ago greeted each other with the query "What's Gold?" now ask with less of energy but more of heat "What Says the Thermometer?" Fat men bewail their too solid flesh, and slender ones regret that their bones are so near the surface that they grill in the sun. Fan and soda-water dealers realize stupendous fortunes, and languid sextons have the best pews in the churches to offer to straggling strangers. Closed, dust decked shutters line the streets and hide the windows, from which, but a fortnight ago, airy banners of lace fluttered and eyes of beauty peered. Some of us are tied by Gordian knots to the city, some of us have fled already to the retreats of our choice and revel in the records of a high flying mercury while enjoying the low temperature of an alp or a billow, and others are waiting and hesitating, unable to decide which among the legions of resorts they shall this year honor.

One thing is certain, and that is that Bedford, Cresson, Cape May and Marquette, will swarm with fugitives from these triplet cities, for there is never a year that some of us do not decide upon each of those four.

Cresson is sure to be filled with Pittsburgh people, and those from among the best, and some Philadelphians, with perhaps a sprinkling from Cincinnati, or perhaps from farther South, will enjoy its exhilerating air, its beautiful scenery and its blankets.

Bedford draws its guests more numerously from Baltimore and the South, and is for a short season as gay as a Saratoga and as exclusive as a Newport. Marquette is the trysting ground of all the great copper men and their families, and thus Boston, New York, Cleveland and Detroit are as largely represented as Pittsburgh. Let a man but take the tour of the upper lakes and he from that time becomes their ardent advocate and is sure sooner or later to go again and again.

Cape May may also be regarded as in a certain sense a local watering place. The mass of its visitors are Philadelphians, then come Baltimoreans, and Pittsburghers, while New York, New England and the West patronize that Queen of the Coast but sparingly. It is not so stylish as Long Branch nor so elegant as the capital of Rhode Island, but it has scarce an equal in the world for safe and glorious surf bathing, and for genuine fun and jollity, if a land breeze does not blow a million of mosquitoes down upon you, in which case there is no salvation except in flight.

Many well known citizens are now at Williamsport with the judges and lawyers of the United States District Court. Some will doubtless accompany the court when it moves to Erie, and there enjoy its unequalled bay, glorious trees and penetrating dust. Some few will visit the rendezvous of brides at Niagara or the giant hotels and medicinal springs at Saratoga, others will go down the St. Lawrence and up the Saguenay, where the sublimity of the scenery has only been marred and not destroyed by the recent fires. That strange combination of mountain and ocean, the island of Mount Desert, has better recommendations for guests now than it had last year, but those who are attracted thither, must look for no extravagance of dress and no luxury of table, for every thing is still of the very plainest and a flannel walking suit is a necessity.

But there can be no use in going over a catalogue of delightful places, thinking to attract persons to them by our words, for we feel sure that none who can do otherwise will brave the July and the August promised by such a broiling June. And those who can't get away can glean but little pleasure or refreshment out of a newspaper, with the thermometer, in the ice house round the corner, pointing to 90 degrees.

## DICKENS' LAST LETTER.

The secular and religious press, as well as the pulpit, is now discussing at great length, whether or not Charles Dickens was a Christian. This might have been a matter of some moment to Mr. Dickens while he lived, but so far as he is concerned now, the discussion is useless. Theologians always tell us that the Saviour laid down this rule as a test of Christian character, "Ye shall know them by their fruits." We do not know that Mr. Dickens' life was visibly adorned with any of those shining religious virtues which orthodox Christians look upon as the products of a "gracious soul," but enough is known of him to show that he honored and respected the Christian religion.

In the *Daily News* of February 14th, 1846, he wrote a number of verses, from which we select the following:

The God who took a little child
 And set him in the midst,
And promised him His mercy mild,
 As, by Thy Son, Thou didst:
Look down upon our children dear,
 So gaunt, so cold, so spare,
And let their images appear
 Where lords and gentry are!

Oh God, remind them! In the bread
 They break upon the knee,
These sacred words may yet be read,
 "In memory of me!"
Oh God, remind them of His sweet
 Compassion for the poor,
And how he gave them bread to eat,
 And went from door to door.

The best evidence, perhaps that we have of his respect for the Bible and the religion of Jesus Christ, is found in a letter which he wrote on the day he was seized with the illness which terminated his earthly career, and which is supposed to contain the last words he ever penned. Some one, it would appear, had directed Mr. Dickens' attention to a passage in the tenth chapter of "The Mystery of Edwin Drood," which would likely wound the feelings of those of his readers who were devoted to the Christian religion, inasmuch as it contained, in the opinion of the person who wrote him on the subject, an irreverent allusion to a passage in the Holy Scriptures, which is supposed to refer to the Lord Jesus Christ. Mr. Dickens wrote the following in reply:

"Gad's Hill place, Higham by Rochester,
Wednesday, the 8th June, 1870.

"DEAR SIR,—It would be quite inconceivable to me—but for your letter—that any reasonable reader could possibly attach a Scriptural reference to a book of mine, reproducing a much abused social figure of speech, impressed into all sorts of service on all sorts of inappropriate occasions, without the faintest connection of it with its original source. I am truly shocked to find that any reader can make the mistake. I have always striven in my writings to express veneration for the life and lessons of our Saviour, because I feel it; and because I re-wrote that history for my children—every one of whom knew it from having it repeated to them long before they could read, and almost as soon as they could speak. But I have never made proclamation of this from the house-tops. Faithfully yours,

"CHARLES DICKENS."

### The English Clergy on Dickens--The Healthful Spirit of His Teachings--His Creed of Humanity.

[From the London Daily News.]

On Sunday evening the Bishop of Manchester preached at Westminster Abbey, from the words "Great is the mystery of Godliness." The sermon was a plea for the toleration of differences of opinion where the foundations of religious truth were accepted. Towards its conclusion, the Bishop said: "It will not be out of harmony with the line of thought we have been pursuing—certainly it will be in keeping with the associations of this place dear to Englishmen, not only as one of the proudest Christian temples, but as containing the memorials of so many who by their genius in arts, or arms, or statesmanship, or literature, have made England what she is—if in the simplest and briefest words I allude to that sad and unexpected death which has robbed English literature of one of its highest living ornaments and the news of which, two mornings ago, must have made every household of England feel as though they had lost a personal friend. He has been called in one notice an apostle of the people. I suppose it is meant that he had a mission but in a style and fashion of his own, a gospel, a cheery, joyous, gladsome message which people understood, and by which they could hardly help being better. It was the gospel of kindness, of brotherly love, of sympathy in the widest sense of the word. I am sure I have felt in myself the healthful spirit of his teaching. Possibly we might not have been able to subscribe to the same creed in relation to God, but I think we should have subscribed to the same creed in relation to man. He who has taught us our duty to our fellow men better than we knew it before, who knew so well to weep with them that wept, and to rejoice with them that rejoiced, who has shown forth all his knowledge of the dark corners of the earth, how much sunshine may rest upon the lowliest lot, who had such evident sympathy with suffering, such natural instinct of purity, that there is scarcely a page of the thousands he has written which might not be put into the hands of a little child, must be regarded by those who recognize the diversity of the gifts of the spirit as a teacher sent from God. He would have been welcomed as a fellow laborer in the common interest of humanity by Him who asked the question: "If a man love not his brother whom he hath seen, how can he love God whom he hath not seen?" The Rev. Mr. White, Chaplain to the House of Commons, in his sermon at the Savoy Chapel, spoke of the death of Charles Dickens, and said that strange as it might sound, Mr. Dickens had borne essential service to the Christian church by his writings. There was a purity and healthfulness in his writings which were a natural consequence of this character, and this might be understood by the fact that one of the last letters he wrote, if indeed not the very last, was written with a view to remove a calumny that he had been unfaithful to Christian truth. Mr. Dickens, the Reverend Chaplain said, had taught Christianity with much greater effect than many priests had done.

### The Khirgis Rebellion, Battles and Losses.

The Khirgis rebellion is (June 3) reviving in the steppe between the Caspian and Lake Aral. From the latest Orenburg intelligence we gather that the attack on Colonel Rukine's detachment was a more serious affair than at first appeared. The Colonel with two officers, two non-commissioned officers, thirty-eight Cossacks, and one gun, had left Fort Alexandrouski, on the peninsula of Mangishlak, to collect the taxes imposed under the new statutes. They had not proceeded very far when they found themselves surrounded by the natives, and were taken prisoners without having the satisfaction of striking a blow. The fort, as we know, was then attacked, but shortly after, relieved by reinforcements sent from the Caucasian shore of the Caspian. In the beginning of May a second attack was attempted.

This time the Khirgis were several thousand strong, and in an engagement with the garrison, which boldly confronted them in the open field, killed some twenty Russians.

In consequence of these disquieting events 5,000 fresh Russian troops have been dispatched from Orenburg to the river Emba, Fort Aktube and other Russian positions in the western steppe.

SAYS a New York letter: "You must not be at all surprised if our next Republican State Convention adopt a resolution to the effect that no more moneys must be appropriated by our State authorities for sectarian purposes. It is as certain as that the sun will rise to-morrow that any political organization, Republican, Democratic or third party, which will go into the contest on this issue, will sweep the Empire State by an overwhelming majority. The same is true of New Jersey.

### The Ram Atlanta.

The most interesting case concerning the ram Atlanta will shortly be presented to the public. The decision of the United States will probably be called on to establish a precedent on the laws of contracts between a citizen of the United States and a foreign government. One Sidney Oaksmith, on the 5th day of August, 1869, contracted with the Haytien Government, then under the Presidency of Sylvain Salnave, for the sale and delivery of an iron clad called the Atlanta. The sum to be paid was $150,000 in gold or coffee, $50,000 in gold to be paid on the complete equipment and armament of the vessel, $10,000 in gold on the arrival of the vessel at Port au Prince, and $90,000 to be paid within a certain specified time, either in coffee or gold, according to the option of the Haytien Government. $49,404 58 was paid on account of the contract, and the vessel was, at the request and demand of Mr. A. Tate, Minister Plenipotentiary at Washington to the Haytien Government, formally delivered to the Haytien Government, on the 3d of December, 1869, at Philadelphia, he, Mr. Tate, signing the necessary receipt therefor, and in which he was joined by Admiral Elms, the Admiral commanding the said ram Atlanta.

The Atlanta sailed from the port of Philadelphia on the 16th day of December last, with her officers and crew, and under the Haytien flag, to carry on the bloody strife then pending between Salnave and Saget; but fate ordained that Salnave's sun should set. The Atlanta, from the day of her departure from our shores, has never been heard of. Salnave has fallen, and Niessage Saget, now President of the Haytien Republic, is called on to pay the little bill amounting to $100,595 42 gold. The general principles of law declare the liability of the present Government of Hayti to pay the amount. From the date of the Restoration and during the numerous revolutions in France that have uprooted so many forms of government, the contracts made by all prior governments have been recognized and faithfully performed, and it is difficult to see why the government of the Republic of Hayti should attempt to form any precedent contrary to the established rules and laws of all civilized nations.

### Livingstone--His Probable Fate.

At the final fortnightly meeting of the session of 1869-70 of the Royal Geographical Society of England, in London, June 14, Sir R. Murchison referred to the present position of Dr. Livingstone and the succor which is to be sent to him.

He said: There have been great misapprehensions about this affair, and I have received numerous applications from active young men anxious to go in search of Dr. Livingstone, supposing that there was a real expedition about to start from this country or elsewhere. There is no such expedition, even in imagination, and certainly none in reality, contemplated in any way. Dr. Livingstone has been more than three years and a half in the heart of Africa, without a single European attendant. I am not sure that the sight of a young gentleman sent out from England, who was not acclimatized, would not produce a very bad effect instead of a good one upon my friend the doctor, because we would have to take care of the new arrival, who would very soon die there, and the poor doctor would have an additional load. I have, therefore, to announce that there is no such intention whatever. I have received a dozen letters from admiring young volunteers, who are anxious to distinguish themselves, but who have not the least idea of what they are about. I have every reason to believe that the £1,000 that the government has given will go out by the Consul Zanzibar, who happens, accidentally, to be in this country, and who is going out immediately. He will instruct Dr. Kirk, the Vice Consul, to refit the same expedition which was started before, but which was impeded by an attack of cholera. The cholera has passed away entirely, the country is free from Zanzibar, and the only difficulty now is to get to Ujiji, where my dear and valued friend was and still is, for he cannot move forward or backward without carriers, supplies and so forth. It will take two months or more for those supplies to go from the seaboard to Ujiji, therefore you must put aside all anxiety for some months to come. I hope in about seven or eight months hence you will hear good news, and that very soon after that we shall see our friend again in his native country.

### Fire! Fire!

The Philadelphia *Ledger* of Tuesday says:

"About this time look out for frequent fires, might replace in our modern calendars some of the old-time predictions in the almanacs of our ancestors. Among the fires reported in the newspapers of yesterday was a very destructive one in the car shops, at Reading, Pa., on Sunday, two in our own city on the same day, one also in Philadelphia, on Saturday, and one in New York, on the same day—all from the accumulation of inflamable materials—and at least two of them seem to have been from spontaneous combustion. On this latter subject there seems to be stubborn disbelief by some persons who ought to know better. There is no longer any room for doubt that greasy and oily rags, or cotton waste that have been used for wiping oiled machinery, or rags soaked with benzine or paint, will, if kept in piles, or hid way in closets or under stairways, or in other nooks and holes, generate sufficient heat to take fire and burn whatever is within reach. This danger is greater in hot weather than at any other time. Such stuff should not be allowed to accumulate about any house or factory, and least of all when the thermometer is ranging from eighty to a hundred. Then, at this season of the year, we have the additional dangers from the explosion of fire-woks, which, notwithstanding the mischief they do every year, and notwithstanding the fact that they are under the ban of the law, are left, year after year, to carry on the work of danger and destruction. It is rather expensive patriotism, but, unfortunately, those who play are not the ones who have to pay.

### A Mother's Expiation--A Tale of Murder And Suicide.

One day last week a dog that had been prowling about in a neighborhood in the southwestern portion of Henderson county, Tennessee, brought up the lower half of a white infant's body. One of the child's feet was gone, and looked as if it had been eaten off. The citizens were greatly shocked and incensed when the discovery was made known. A meeting was held and opinions interchanged, but no facts were elicited pointing to the author of the infanticide. Suspicion strongly rested, however, on a woman in the neighborhood, who is believed to be the murderer and unnatural mother of the child.

An inquest was held, and information obtained which led to the issuing of a warrant for the arrest of Miss Susan Yoes, charged with the guilt of child-murder. The young woman, aged about twenty-four years, was working in a cotton field when information reached her that the warrant had been issued. Dropping the hoe, she went to the well on the premises of Mr. Benjamin Rhodes, about four hundred yards distant, and plunging headlong into the abyss, was drowned. The well was twenty-six feet to the water, with ten feet of water at the bottom.

### Shoo Fly!

The Lima *Gazette* says: "A lady in one of our churches rested her head on the back of the pew in front, as all devout people do in the time of prayer, but in the pew before her sat a young man who neither bowed his head nor kneeled. A beautiful plume nodded and danced upon the head of the fair one behind him, occasionally touching the neck of the youth, who evidently considered it a fly or some other troublesome insect. For a time he bore the unpleasant sensation without a murmur, but at last patience ceased to be a virtue, and from the flash of his eagle eye one could plainly see that the hour of that fly had come. Instead of saying 'Shoo-Fly, don't bodder me,' cautiously his hand moved toward the supposed offending insect; then followed a frantic clutch and a spring behind him. Imagine the horror of the youth to find in his hand the nobby hat of the fair one, which he had torn violently from her head, sadly disarranging the contour of braids and chignon. The lady was indignant, of course, and the youth could have been purchased at an immense sacrifice about that time. Explanation and apologies followed, the disorganized was put in order as soon as possible, and the devotional exercises were resumed."

MR. DENNIS B. REDDING, a victim of the capitol disaster, died in Richmond on Sunday. He had one of his legs broken and was otherwise injured, but up to last week had improved so much as to remove all fears of his recovery. He was, however, seized with lock-jaw a few days since, and died as above stated.

THE New York *World* of Tuesday says: An inquest was held yesterday by Coroner Schirmer in the case of John O'Brien, whose death resulted from a stab wound of the abdomen, received at the hands of Lawrence Sullivan during a fracas at No. 1 Whitehall street. O'Brien, it will be remembered, interfered to save Sullivan's wife from a castigation, when Sullivan turned on him and stabbed him. The jury rendered a verdict against Sullivan and he was sent to prison. During the proceedings Sullivan, who had been very unruly from his entrance into court, seized the chair upon which he was sitting, and bounded across the room to kill Mrs. Buckley with it. He was seized by officer Smith, and forcibly put down in his chair. The Coroner sent for handcuffs and had him secured. He was very violent and threatening.

**THE LIVING MACHINE.**

Injure the main spring of a watch and every portion of the works become disordered. The human stomach is to the human system what that elastic piece of metal is to the chronometer. It influences the action of the other organs, and controls to a certain extent, the whole living machine. The comparison may be carried farther, for as the weakness or other imperfections of the main spring is indicated on the face of the time-piece, so also is the weakness or other disorder of the stomach betrayed by the face of the invalid. The complexion is sallow or faded. The eyes are deficient in lustre and intelligence, and there is a worn, anxious expression in the whole countenance which tell as plainly as written words could do, that the *great nourishing organ*, whose office it is to minister to the wants of the body, and to sustain and renew all its parts, is not performing its duty. It requires renovating and regulating, and to accomplish this end Hostetter's Stomach Bitters may be truly said to be *the one thing needful*. The broken main spring of a watch may be replaced by a new one, but the stomach can only be repaired and strengthened, and this is one of the objects of the famous vegetable restorative which for eighteen years has been waging a successful contest with dyspepsia in all climates. As a specific for indigestion it stands alone. When the resources of the pharmacopœa have been exhausted, without, at best, doing more than mitigating the complaint, a course of this wholesome and palatable, yet powerful, stomachic effects a perfect and permanent cure. In all cases of dyspepsia, the liver is more or less disordered, and upon this important gland, as well as upon the stomach and bowels, the Bitters act with singular distinctness, regulating and reinvigorating every secretive and assimilating organ on which bodily and mental health depend.

DR. WHITTIER
CONTINUES TO TREAT ALL PRIVATE DISEASES, Syphilis in all its forms, all urinary diseases, and the effects of mercury are completely eradicated; Spermatorrhea or Seminal Weakness and Impotency, resulting from self-abuse or other causes, and which produce some of the following effects as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.
A particular attention given to all Female complaints, Leucorrhœa or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, Pruritis, Amenorrhœa, Menorrhagia, Dysmenorrhœa, and Sterility or Barrenness, are treated with the greatest success.
It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.
The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases that can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.
The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A. M. to 8 P. M. Sundays 12 M. to 2 P. M. Office, No. 9 WYLIE ST. (near Court House) Pittsburgh.

### PITTSBURGH MARKET.

OFFICE OF PITTSBURGH GAZETTE,
WEDNESDAY, June 29, 1870.

The railroad war has been productive of some good in reducing both passenger fare and freights very materially on the trunk lines between the east and west, and a still further reduction in the former is expected. The New York Central road is limited by its charter to two cents per mile for passengers, and if it can make money at that, as it undoubtedly does, other roads can do the same. "There is no good reason, says the Cincinnati *Gazette*, why the public should pay the railroad corporations more than a reasonable compensation for transportation, but it seems that the railroads propose to increase the rates on freight to make up for the reduction on travel. It is announced on the authority of the general freight agents of the principal Western roads that westward bound freight rates will be increased after July 1st, which is in season to levy the tax on all goods purchased in New York for the fall trade in the west."

The flour and wheat markets continue dull and heavy, both in New York and Chicago, and if there is not a reaction soon it will not be long before No. 2 wheat will be down to a dollar again, and, of course, in that event, flour would have to follow suit, as the one must go with the other. The Chicago *Republican*, in commenting on the wheat market says:

"The market is, without doubt, under the control of speculators, and we anticipate some pretty sharp fielding on their part within the next two weeks. While there is no doubt but that wheat is relatively higher here than at New York; the receipts are larger and shipments comparatively light, and that the banks are on the bear side, it is decidedly unsafe to operate largely unless the operater is in the "ring." Some profess to believe that the present downward tendency of prices will increase the orders, and that it is part of the programme of the "ring"—composed of Chicago and New York capitalists—to force the two markets down, then buy in round lots and allow prices to advance rapidly, when the "ring" can unload at a profit."

APPLES—Sales of new crop at $4.50@5.50 per bbl as to quality.

ASHES—Steady but unchanged; Common Soda, 4c; Refined, 4¼c; Pearls, 9¼c; Pots, 7¼c.

BROOMS—Store prices; Fancy, $5.50; No. 1, $4.50; No. 2, $4; No. 3 $3.50; Common, $2.50@3

BUTTER—Is dull and generally in bad condition in consequence of the hot weather, though prices are nominally unchanged, ranging from 14@18c.

CHEESE—Sale of Western Reserve at 11@12, and Factory and Goshen at 13@14.

CHICKENS—In better supply and lower; we now quote at 65@70cts per pair by the coop

CORNMEAL—95@$1 per bushel.

CEMENT—Sales of Louisville Hydraulic at $2@2¼ per bbl.

CARBON OIL—Is dull and weak; nominal at 23@23¼, in a jobbing way.

DRIED FRUIT—There is some little inquiry and the market is almost bare of the better qualities. Apples 4¼@5¼. Peaches 5¼@6¼ for quarters, and 7@8 for halves.

EGGS—There is no improvement to note in the demand, and the market is dull, though prices are unchanged, 19@20cts.

FEATHERS—Quiet and unchanged, at 80@85 cts. to the trade.

FLOUR—The market is rather dull, buyers generally having become impressed with the belief that prices are more likely to decline than to advance, and consequently they are not so anxious to augment their stock as they were a week ago, while, on the other hand, dealers are not so stiff, and are now giving their customers all the flour they want. We continue to quote good established western brands at $6.50. Fancy brands $7@8. Rye flour, $5.

GRAIN—The wheat market here is unsettled; the mills are endeavoring to pull prices down from 3 to 5 cents per bushel, but some dealers refuse to make these concessions, and are taking their receipts into store or elevator, being pretty confident that prices will improve again within the next week or two. Oats continue dull though dealers continue to show a good deal of nerve, and are holding in expectation of a stronger market and better prices; we can report a car load to go east at 53 cts, which is considered the top of the market—indeed, there are but few eastern buyers at present at any prices. Philadelphia is anxious for consignments, but dealers prefer selling here, and in this they are right. Corn is less active, as the demand is again local, the eastern men having quit. Shelled cannot be quoted above 90 cts. Rye continues quiet; distillers as a general thing are not buying and dealers are only paying 85 cts for small lots. Some round lot sales have been made within the last day or two on private terms, supposed to be about 92 cts.

GROCERIES—There is some little feeling in regard to Sugars in consequence of the Senate having voted down the action of the House in reducing the duty considerably on foreign Sugars, and the natural effect of this will be to stiffen the market and, if successfully carried out, will doubtless cause an advance in prices. Otherwise the market is devoid of anything new or important.

COFFEE—Ordinary Rio, 18½c; fair to good, 19@20c; prime, 21¼c; choice, 22c; strictly choice, 22½c.

SUGARS—Cuba, 10⅛@11; Porto Rico at 10⅛@11⅛; New Orleans, 10⅛@12c; Havana in boxes, 11@12. Molasses Sugars, 9⅛@10⅛. A Coffee, 13⅛c; "B" do 13c; Extra C 12⅛c; C, 13⅝c; Crushed, Granulated 14⅛; and Powdered 14⅛c.

### PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE,
WEDNESDAY, June 29, 1870.

There was no movement in oil to-day, the time, and attention of dealers generally being absorbed in discussing the disaster of Tuesday, and, as a consequence, we have not a single sale to report. The statements in regard to the destruction of property and loss of oil, are, as might be expected, very conflicting, and while there are those who contend that the reports of the disaster as furnished by the newspapers, were greatly exaggerated, there are others, equally as well posted, who incline to the belief that the newspapers reports are not far wide of the mark, and that the loss is nearly, if not altogether, as heavy, as reported. We were informed this afternoon, by a gentleman, one of the sufferers by the disaster, that the loss of oil footed up about 36,000 bbls, reducing the refined to crude.

CRUDE.

Not a single sale reported—market quiet and, if anything a shade firmer, though prices, compared with Tuesday, are unchanged. Spot quoted at 11⅛@11⅛, and the same quotations will apply to seller July. Future deliveries very quiet.

REFINED.

Spot is firmer, which is in consequence of the fact that to-morrow is delivery day, and prices are a shade higher, spot being quoted at 27⅛@27¾. July 26⅞@27; August 27, and September and October 27⅛.

## RIVER NEWS.

The river remains about stationary at this point with scant two feet in the channel, by the Monongahela pier marks—it is said there are 28 inches at Rowley for small boats. Weather continues hot and unsettled, with strong indications at times of rain.

There has been no arrivals or departures since the date of our last report.

The Belle will go on the dock to-day for some repairs, but will be off in time to leave as usual on Saturday at 5 o'clock.

The new steamer Exchange is almost completed, and will be ready for business as soon as there is water

The Juniata arrived at Cincinnati on Monday, and will probably lie up there for a time.

The sale of the Glasgow to the Louisville and Arkansas river packet Company has been consumated. Price, $15,000.

The Glendale, Pittsburgh to St. Louis, arrived at Cincinnati on Monday night.

—The R. P. Converse struck a snag and sunk on Tuesday last, in Jacksonport, just above the mouth of Black river. The Converse has been towing in the employ of the parties building the bridge over the White river at Duval's Bluff. She was owned by Capt. Carlisle, and it is valued at $5,000. As she went down in about four feet water, she can probably be raised. She lies in the channel and obstructs navigation.

—The Cincinnati *Commercial* says: W. A. Devenny arrived from N. O. yesterday, after an absence of four years. He was engaged last season in the N. O. and Red River trade, clerking on the Jefferson and leaves for Pittsburgh to-day, to assist Capt. H. A. Dorman in Capt. Rea's new Red River packet, Carrie Converse, now nearly completed at Pittsburgh.

—It has been officially announced, by order of the Board of Directors, that the Louisville and Portland Canal will be closed on and after the 25th of July and until the 1st of September, or the further order of the Board, for the purpose of enlargement and repairs.

—Odds are being offered at Evansville that the R. E. Lee will make better time than the Natchez. It is reported that the Lee stripped herself at Mound City, on her way down, and will have no superfluous freight when she leaves New Orleans next Thursday.

—The keel of a small stern-wheel steamboat was laid a few days since, in the ship-yard of Messrs. Wilson, Dunlevy & Co., North Wheeling. The boat is designed for the bayou trade in the South.

—The Baltic arrived at Lousville Sunday, with three barges iron ore, which she moored to the mouth of the canal, then returned to Cairo for the remainder of her tow, when she will proceed to Pittsburgh.

—John McCarty, Esq., who recently received the nomination to a circuit judgeship in Indiana, was formerly a Louisville and New Orleans pilot.

—It is reported that the Gallatin is about to be purchased by several colored men, who propose to run her in the lower trade.

—The trial of the parties arrested for riot on the steamer Dubuque, last July, is in progress in Henry county, Ill.

—All the officers of the J. M. White are dead, except the engineer, who is a resident of Galena, Illinois.

—The R. E. Lee, Richmond, Great Republic and Natchez were all at the Memphis wharf on Saturday.

—The Belle Lee will not resume her trips before September.

The greater part of the road is already completed and shows large earnings, and the balance of the work is rapidly progressing.
We unhesitatingly recommend these Bonds as the safest and best investment in the market.
U. S. Five-twenties, at present prices, only return five per cent. interest, while these pay eight and one-quarter per cent. in Gold, and we regard the security equally good.
The Company reserve the right, without notice, to advance the price.

**A Visit.**—The "Grand Inquest" for the Courts of Allegheny county visited the Western Penitentiary yesterday and of course were shown through the establishment, which they found in admirable condition.

**Monk Mullen** complained to Alderman Taylor yesterday that Patrick Barratt had hit him on the nose, in the street, in daylight. An assault and battery information was the result, but the case was finally settled.

**Anthony Haily** made information before Alderman O'Donnell yesterday, charging officers Hager and McClary with disorderly conduct, they having, he says, gruffly ordered him off a pile of pig metal on Fourteenth street, and when the demand was refused raising a row. Warrant issued.

**The Accidental Shooting.**—Coroner Clawson yesterday held an inquest upon the body of Phillip Williams, the colored boy who accidentally shot himself the evening previous, with a pistol. A warrant in accordance with the facts we published yesterday was rendered. The deceased was about thirteen years of age.

**Fatal Injury.**—Saturday evening last David E. Junkins, bricklayer at Dilworth, Porter & Co.'s mills, in South Pittsburgh, accidentally fell while passing along the street and injured his side on a piece of board. He got up and walked home, not thinking he was seriously injured, and on Tuesday he died from the effects of the injury.

**Slight Fire.**—About half past six o'clock last evening a slight fire occurred in Tibby's Glass House, at the corner of Smallman and Twenty-second streets. The alarm was sounded from box 62, to which the engines of the district responded promptly. The fire originated in the packing house and was extinguished before serious damage was done.

**Caroline M. Yancer** made information before Alderman O'Donnell yesterday, setting forth that August Heisler had received a ticket from him, for passage between Omaha and New York, which was to be good and the money returned to the owner of the ticket,—but that the agent in the transaction Heisler had only fulfilled the first part of the contract. Warrant issued.

**Another Haul.**—Chief of Police Clark, of Allegheny city, paid a second visit to the house on Falks alley, East Birmingham, yesterday, and recovered a new overcoat, a roll of black cloth, two pairs of boots and a pair of shoes, all supposed to have been stolen. He also recovered a part of a set of carpenter's tools, an augur, brace and bit and chisel, which may have been used for "burglarious" purposes.

**Another Rope Thief.**—Robert Stewart made information, before the Mayor, yesterday, charging Joseph Samuels with the larceny of a cable from a raft of lumber in the Allegheny river, opposite Herr's Island, and also against Thomas George for receiving the same, knowing it to be stolen. The accused were arrested and after a hearing were committed to jail in default of bail for their appearance at Court.

**The Festival.**—Last night was again one of festivity at the South Common M. E. Church. The ice-cream was excellent, and the lemonade, mineral water and sarsasparilla were very cooling to the palate. The voting was lively. The vote on the cane for the most popular candidate for Prothonotary showed Mr. Riddle ahead by quite a majority. The owl and birds still look down with proud eyes into the sparkling streams. The festival will be continued to-night.

**Slight Fire.**—About twelve o'clock Saturday night a young man sleeping above Kohen's grocery store, Federal street, Allegheny, was awakened by the burning of some clothing in his dressing bureau. He had retired, leaving a drawer open and a candle lighted upon the bureau. The candle burned down and the snuff fell into the drawer, causing a slight fire. An alarm was sounded from box 35, but the fire was extinguished without the aid of the department.

**Runaway.**—Tuesday evening about five o'clock, Henry Giles, a boy fourteen years of age, and Charles Horner, a young man, were riding in a spring wagon loaded with boards along Avery street, Allegheny, and when near Cedar avenue the boards came against the horse, causing him to take fright and run away. The occupants of the wagon were thrown out and severely injured. Horner had both legs fractured and Giles received serious injuries about the head.

**In justice** to the contractors for the stone work of the new City Hall, we would state that neither was present when the defective stone which we noticed the other day was received, else it would have been promptly condemned. The contractors take much pride in their work on the building and challenge any person to discover a flaw or defective stone in the entire front, and maintain that it is the most perfect and most solid piece of masonry in this State.

**Election.**—The annual election of officers of St. Paul's Roman Catholic Orphan Asylum was held in the basement of the Cathedral on Wednesday, 29th inst., with the following result: President, Rt. Rev. M. Domenec; Vice President, Very Rev. J. Hickey; Treasurer, Dominick Ihmsen; Secretary, Charles F. McKenna; Managers, James McCabe, Torrence Campbell, Charles Maginn, Thomas Rourke, John O'Connor, Henry A. Freyvogel, John C. Reilly, Peter O'Neill, Bernard Malone.

**Dodged.**—John Wilson, residing in the Twelfth ward, played a little joke upon a policeman yesterday. The blue coat was after John for whipping his wife—that lady having sworn to the facts before Alderman O'Donnell. John was found in bed and complained of rheumatism. The sympathetic policeman went to get a carriage. John suddenly recovered and was gone when the officer returned. The defeated individual lays particular stress upon the assertion that the next time he will make his man sure.

**House Burned.**—The residence of Mrs. John Cook, of North Fayette township, was burned down on Monday of last week. Some shavings had been put into the cooking stove, and the fire originated by sparks falling upon the roof. Before help could be obtained the fire had made so much headway that it was impossible to save the building. Two families resided in the house, that of Mrs. Cook and Mr. Metcalf. A greater part of the furniture and clothing belonging to Mrs. Cook and family was saved, but Mr. Metcalf lost almost everything.

**Old and New** for July has been received, looking as typographically superior as ever, although it has changed hands and is now published by the Roberts Brothers, of Boston. Mr. Hale still retains the editorial chair, and the list of contributors, present and future, is a very good one. Mr. Torricelli's paper, in this number, upon "American Bishops and Infallibility," will doubtless attract more attention than any of the others, and a short contribution from Mrs. Julia Ward Howe will puzzle its readers to know why it was either written or published.

**More of Them—Insecurity of the Workhouse.**

The Workhouse seems to be an excellent place in theory to send people who transgress the laws, but practically it is not a good place to keep them—that is they are not kept very securely. Heretofore we have chronicled innumerable escapes. Hardly a week passes but some of the prisoners retire of their own accord. The latest were the two who unceremoniously departed yesterday. They were Henry Barton and John Corney. While out working about the premises, a favorable opportunity was seized upon, and the twain disappeared. Word was brought to the Allegheny Mayor's office last evening, but the men at latest accounts were not apprehended.

**Serious Accident.**

A serious runaway accident occurred near Freeport, Saturday morning last, by which Miss Helen Knowlson, a young lady residing a short distance from that town, was severely injured. She was driving to Freeport in a two horse carriage and while descending a hill a short distance out of town the horses became unmanageable and started to run. They had not proceeded far when a man who was coming up the hill hoisted an umbrella and held it in front of the horses, which caused them to run to one side of the road, upsetting the vehicle and throwing the lady out. The horses kept on in their wild career, dashing the carriage to pieces and ran over a valuable cow, which was killed instantly. Miss Knowlson was removed to her home in an unconscious state and remained in that condition until the following Monday, when she began to recover slowly. The injured lady is a daughter of Mr. John Knowlson, farmer, residing about two miles from Freeport.

## THE COLLINS HOMICIDE.

**Trial of John Nicholson for the Murder of Patrick Collins—Verdict of "Not Guilty"—The Prisoner Discharged.**

**Oyer and Terminer—Judges Sterrett and Stowe.**

WEDNESDAY, June 29.—The Court of Oyer and Terminer was opened at eleven o'clock A. M., Judges Sterrett and Stowe on the bench.

The case of the Commonwealth vs. John Nicholson, indicted jointly with Kerr and Carrie Jones, for the murder of Patrick Collins, was taken up. The prisoner was arraigned in the usual form and plead "not guilty."

HISTORY OF THE CASE.

The circumstances under which this murder was committed having been fully reported, are doubtless fresh in the minds of many of our readers, and it is, therefore, only necessary to refer to them briefly. The deceased, Patrick Collins, was a laboring man or hack driver, and on the day preceding his death, it appears, had been drinking freely and was considerably under the influence of liquor. About nine or ten o'clock in the evening of that day, the 9th of May last, he went to a saloon on Third avenue, next door to Philo Hall, kept by Patrick McCarroll, where he took several drinks, and about half-past ten o'clock he went out of the saloon and went up stairs to a room over the saloon which was occupied by Carrie Jones, a "woman of the town," who it appears was the mistress of Nicholson, and while there it is alleged by the prosecution, Nicholson and Kerr came in the room, and finding Collins there put him out on the landing, struck him and knocked him down stairs, where he was found a half an hour later by the proprietor of the saloon. Nicholson and Kerr then left the house and the latter was arrested a short time afterwards at the foot of Market street on his way to the boat, upon which he was employed. Nicholson left town but returned the following day and gave himself up to the authorities, and Carrie Jones, who doubtless could tell more about the murder than any one else, if the man was murdered, was arrested the same evening the murder was committed.

The Commonwealth was represented by the District Attorney, General Pearson, and R. J. Powers, Esq., and Messrs. Marshall, Gibson, Collier and Wilson appeared for the defendant.

After the arraignment of the prisoner, the work of securing a jury was commenced, and occupied the time of the Court until half-past twelve o'clock, at which time but ten jurors had been empannelled.

Court then took a recess until half-past one o'clock.

AFTERNOON SESSION.

At half past one o'clock Court convened and the jury was completed. The following jurors were sworn: Henry Dengler, Chas. Reho, H. W. Hastings, W. J. Kain, Wm. Walker, Andrew Pitcairn, Robert Onsler, Fred. Rhodes, Wm. Large, John Hoffer, George McClintock and Wm. McClure.

The case was opened on the part of the prosecution by Mr. Powers. Dr. F. H. Le Moine was sworn and testified to having been called to see deceased about twelve o'clock on the night of the murder, at a saloon on Third avenue and found the man dead. He described the wounds on the body of the deceased and said that the man had been dead but a few minutes, when he arrived; the body was yet warm. He then detailed the result of the *post mortem* examination. Death resulted from an injury over the right eye, which appeared to have been produced by a dull or blunt instrument.

*Dr. George McCook* was next called, and testified that he made a *post mortem* examination, and after describing the wounds, said that in his opinion death resulted from the repeated concussion from the blows which produced the wounds. He thought the wounds had been produced by some heavy instrument having considerable length, something like a poker or a bar.

*George Buck*, sworn—This witness testified to having been in the saloon on the night of the murder. Collins left the saloon about half past nine o'clock. About half an hour afterwards witness heard a rumbling noise as if some one was falling down stairs. McCarroll, the proprietor of the saloon, went out and brought Collins in, and he died a few minutes afterward.

*Mrs. Margaret M'Carroll*, sworn—My husband kept the saloon when this affair occurred; Patrick Collins was my brother-in-law; saw him when he came to the saloon that night; while she was in her room up stairs she heard a scuffle at the head of the stairs outside of her door, and a few moments after two men, Nicholson and Kerr, came through her room and passed down the back stairway to the saloon below; shortly afterward she and Carrie Jones went to the head of the stairs and looked down and saw at the bottom the form of a man lying.

*Bridget Gorman*, sworn—Was at the house on Third street the night of the murder. Deceased was witness' brother-in-law. Her testimony was in substance as to material facts the same as that of the preceding witness.

*Officer George Garrison*, sworn—Witness is a member of the police force. He testified to arresting Nicholson, but nothing further of any importance was elicited.

*"Curly" Hays* was called and testified to what occurred in the house. Witness was in Carrie Jones' room when Nicholson came in; after taking a couple of drinks together, Nicholson shoved him out of the door into the back room; a few moments afterward he heard a noise at the head of the stairs; Kerr and Nicholson then came out of the front room to the back room and passed down the back stairs to the bar-room. Witness followed and after defendants took a drink they left.

*James McCarroll* was next sworn but his testimony did not elicit anything new.

*Lizzie Edwards*, sworn—Was going to Carrie Jones' room to stay all night, between ten and eleven o'clock; was just going up the steps when I heard a noise at the head of the stairs; went up toward market street and returned and saw a man lying at the foot of the stairs.

*Carrie Jones*, sworn—Before the witness was examined Mr. Marshall, her counsel, asked the Court to instruct her that she was not bound to tell anything that would implicate her in the affair. The Court gave the desired instruction. The witness then testified as follows: Lived on Third [illegible] kept the house; Mr. Nicholson Mr. Hays, and Kerr came to my house that evening; Hays came first; after the others came they ordered me to bring up drinks; I brought up wine for the party; afterwards Nicholson shoved Hays out of the room; shoved him against the door, and then went out, going down the back way; I then got a light and looked down stairs and saw a man lying at the foot of the stairs; came back and called Maggie Carroll to come and see the man.

*Daniel Kerr*, affirmed—The witness was instructed by the Court that he would not be required to answer any questions tending to criminate himself. The witness testified as follows: Live on First avenue; was at McCarroll's saloon on the night of this occurrence; we then went up stairs and took a drink or two; Johnny then pushed Hays out of the room, shut the door and commenced abusing Carrie Jones. He shoved her on the bed and was abusing her, when I heard a noise on the stairs, as if some one falling down stairs. I then got up and started to go down stairs the way I came up, when Nicholson spoke up and said we would go down the back stairs and get a drink in the bar room.

The Commonwealth here rest their case.

Mr. Marshall asked the Commonwealth to state to the jury that they would not ask a verdict of guilty.

The District Attorney stated that he would not ask for a conviction on the testimony.

The case was submitted without argument and the court charged the jury that there was no evidence to warrant a conviction of anything.

The jury without leaving the box returned a verdict of not guilty and the prisoner was discharged.

Court then adjourned.

## THE COURTS.

**Common Pleas—Judge Sterrett.**

WEDNESDAY, June 29.—In the case of McGreggor vs. Sibley & Stoops, previously reported, the jury found for the defendant.

Thomas Smith vs. Henry H. Collins, previously reported, case withdrawn and continued, costs of continuance subject to the future order of the Court.

Charles Campbell vs. the Cincinnati and St. Louis Railway Company; action for damages for injuries alleged to have been sustained in consequence of a collision through the negligence of the agents of the company. Plaintiff is a resident of Washington county, and for a number of years past has been engaged as stock dealer and farmer. On or about November 17th, 1868, plaintiff took on a train on defendant's railway from Burgettstown to Pittsburgh, having a car load of hogs in the train. Near Temperanceville the train was run into by a following train and the caboose car, in which plaintiff and several others were riding, was considerably damaged, and plaintiff had one leg broken at the ankle, and was severely scalded by escaping steam from the locomotive which run into the caboose. He held what is designated by the company a "drover's pass," which is furnished by the company to persons shipping stock free of charge, as it is a rule of the company that shippers must accompany their stock or send some one to look after them. Plaintiff's injuries, it is alleged, prevented him from attending to his ordinary business in consequence of the injuries received since the accident. Messrs. Gibson, Weir and Acheson appear for the plaintiff and Messrs. Hampton and Dalzell for the defense.

The case had not been concluded when the Court adjourned.

## THE OIL FIRE.

**Further Items of Interest—Another Explosion—The Smouldering Ruins—Clearing Away the Rubbish—No Correct Estimate Yet Formed.**

The great oil fire of Tuesday still excites attention, and is the theme of general discussion. Such a calamity so terrible in its progress, so fearful in its results, is not likely soon to be forgotten. Yesterday the scene of the fire was visited by hundreds of people, who kept going and coming until the sun went down. There was not much to see, however. All that remained of what had been stately buildings was a blackened mass of charred and smouldering ruins, with here and there a tall shaft rising as a sort of sentinel reminder of that which had been destroyed.

The alarm yesterday morning about two o'clock was occasioned by the bursting of a benzine tank at the Citizens' works, the end of the fire, which exploded with a loud noise. The flames from it set fire to the agitating house, which, together with its contents, five hundred barrels of oil, was burned. The benzine in the tank continued to blaze all day, and last evening at six o'clock was still emitting flame and smoke, but no danger from it was apprehended. The fire in all the other works raged until yesterday morning, when they slowly died out for want of fuel.

So far as is known no death save the lamentable case of Mr. Foster, marked the conflagration. The three persons injured by jumping out of the Eclipse barrel house are doing well, and it is thought will be about again in a short time. The employes so far as known have all reported unhurt, with the exceptions named.

Workmen were engaged all Tuesday night and yesterday repairing the Allegheny Valley Railroad track. In the evening shortly before six o'clock their work was finished, and after being put to the test, trains began to run over the road regularly again.

The managers of the Citizen's Refinery expect to have their works in running order again in about a week or ten days.

The work of clearing away the rubbish at the National commenced in the afternoon, preparatory, it was understood, to rebuilding immediately. The other refineries Bell's and Dr. Tweddie's, were a heap of smoking ruins, and could not be worked at for the heat. It is probable they will be rebuilt as soon as possible.

The owners of the bridge have as yet taken no definite action, although they say the bridge will be replaced as fast as workmen can do it.

Forsythe's and Dilworth's refineries were running yesterday as usual. The fire at these only burned a tank in each and did not interfere with the works.

The loss as yet cannot be approximated with any degree of satisfaction. As we stated yesterday, the figures first given were rather high, but from all indications the amount will not fall far short, if indeed it does not go over half a million of dollars. During the fire it was difficult to tell what was burning and what was not, owing to the flame and smoke. In a few days the exact estimate can be reached. Altogether, it is said about thirty-six thousand barrels of oil were destroyed, which will amount to a round figure, exclusive of the buildings. Messrs. Swearingen and McCandless, insurance agents for foreign companies state that their loss will not exceed $25,000—less than was expected.

There was $20,000 on Dr. Tweddie's large tank which was struck by the lightning.

There was an insurance on the bridge of $35,000 in home companies, as follows: Peoples, $5,000; Pittsburgh, $5,000; Western, $5,000; Cash, $5,000; Eureka, $5,000; Boatman's, $5,000; Allegheny, $5,000. This renders the Company's loss comparatively light.

There was still too much confusion and excitement yesterday to arrive at any correct conclusion in the insurance further than the above.

A large number of hands are thrown out of employment by the demolition of the various works, who wandered among the ruins yesterday apparently discouraged and hopeless.

## MR. FOSTER'S DEATH.

**Coroner's Inquest—How he Died.**

Yesterday morning the Coroner's jury, empannelled by Alderman Butler to investigate the circumstances attending the death of Mr. Henry B. Foster, who lost his life at the Eclipse Oil Refinery, re-assembled at Deputy Mayor Nichol's office, Butler street, Lawrenceville, where the following testimony was taken.

*John Morland*, sworn — At about three o'clock the fire originated; I was some five hundred feet from the tank of the Eclipse refinery when it was struck, next went to Dr. Tweddie's house to look after the family; saw the whole place in flames, oil flowing over the ground about three feet deep; there were two flashes of lightning; the Citizens' and Eclipse refineries were struck at the same time, the oil flowed in two currents, one towards Dr. Tweddie's residence and the other towards the office and bridge; had not seen Mr. Foster yesterday; believe that to be Mr. Foster from what I since heard. The shock was distinctly felt by all parties on the ground. I helped to carry the remains of the deceased out of the front office; when we found him his head was lying towards the door; had apparently been trying to get out when he was overtaken by the flames.

The tank of the Eclipse, when struck by lightning, was cut from top to bottom, and the burning oil poured out a perfect sea of fire down the street toward the bridge.

*Wilson Conner* sworn—Am a driver on the City Passenger Railway; Mr. Foster, Dr. Tweddie and Mr. McMahon came down on the car at half-past eleven yesterday from the works; Mr. F. left the car at Hatfield; next saw him at half-past one; went up in my car; conversed with him while going up: that was the last I saw of him until three o'clock, about seven minutes before the fire; I looked in at the window at his office to see what time it was; he looked out and smiled; said nothing; he was looking over the books; he could not see the tank from the back office; I was near the Standard works when [illegible] to be Mr. Foster who was burned, as I am probably the last one who saw him.

After the testimony the jury rendered a verdict that the deceased, Henry B. Foster, came to his death by being burned at the Eclipse Oil Refinery, said works having been set on fire by lightning.

All that was found of the body was a portion of viscera and some charred bones. There is no doubt, however, that the remains were those of Mr. Foster, as his watch, knife and bunch of keys were found lying with him.

**Three Principles of Success.**

Honesty, Industry and Printer's Ink are three of the grand sources of success in business. By Honesty we mean that quality of the article which is not content with merely not cheating you. We mean the honesty that when it says an article is good you may depend on it that it is good, and that wont charge you more for a thing than it can be bought for elsewhere.

And by Industry we mean that strict minding of one's business which sees that everything is properly done, and that customers' interests, as well as your own, are carefully and promptly looked after.

By Printers' Ink we mean that a man shouldn't "hide his light under a bushel"—that if he has good goods and deals fairly and honestly, and sells his wares at reasonable rates, he should let the public know of it. No one, we venture to say, will doubt that these are correct principles. We could point to numerous examples of success resulting from adherence to them—one will suffice for the present: Messrs. C. G. Hammer & Sons, furniture dealers, 46, 48 and 50 Seventh avenue, are gentlemen who conduct their business upon these principles, and their unequalled success is the best confirmation of the correctness of this policy that could be offered. *Their* statements may *always* be relied upon, their wares are always of the best quality, and they sell them at the most reasonable prices, and always fill their contracts honestly and promptly, and, judging from the immense amount of furniture they sell, the public evidently appreciate their course. We suggest to all our friends who need furniture to give them a call, as there is nowhere they are so likely to be as well suited or more fairly dealt with.

**Real Estate Transfers.**

**A Stock Trouble.**

No stock in the market is more desirable or more sought after as a safe, fair paying investment than that of the Pittsburgh Gas Company. Recently the capital was increased four hundred shares, and consequently there was considerable anxiety to secure the new shares. The stock sale was largely attended and much competition existed. After three hundred and twenty shares had been sold, a well-known capitalist bid the highest figure for the remaining eighty shares. The Directors on making examination of the list announced that all the four hundred shares had been sold. The gentleman alluded to, disclaimed against the announcement and now proposes to secure the eighty shares, which, he maintains, he legally bought. The matter will find its way into Court for settlement.

**Teachers Elected.**

At a meeting of the Board of Directors of the Grant School District held last evening, the following teachers were elected for the ensuing year:

*Principal*—J. N. Stephenson.
*Grammar Department*—Miss S. A. Wallace, Miss M. J. Graham and Miss E. Johnson.
*Medium Department*—Miss Jennie Mitchell, Miss Lizzie Crooks, Miss Fannie Cougher and Miss J. McClaren.
*Primary Department*—Miss Maggie McElroy, Miss M. J. McClain, Miss Mary McElroy, Miss Jennie Hastings, Miss Nina F. Hebron, and Miss Mattie McNight.

ROSTOCK is to have a musical festival next month, in which Joachim will take part.

HERVE has returned to Paris from London. He cleared 60,000 francs by his sojourn in England.

THE Commander of the Port of St. Petersburg orders vessels entering the Neva with a cargo of petroleum to hoist a red flag, as is at present done by those loaded with gunpowder.

THE *Fremdenblatt*, of Vienna, states that there is living at the village of Szent-Lorinez, in Hungary, a woman one hundred and eighteen years old, who is still so active that she goes to work regularly.

MINNIE HAUCK is engaged for one season, beginning the 1st of September, at the Imperial Opera House, Vienna. She is to receive three hundred florins an evening, and the manager binds himself that she shall appear at least six times a month.

THERE are altogether nine hundred and fifty-three officers in the regular army of Saxony. Of these, 3 are generals; 7 lieutenant generals; 10 major generals; 22 colonels; 18 lieutenant colonels; 52 majors; 199 captains; 196 first lieutenants, and 330 second lieutenants; 11 auditors and 96 surgeons.

AT the Saint-Etienne (France) manufactory of arms, an order is now being executed for 10,000 carbines for the Dutch Government. The new weapon for Holland is a needle-gun, according to the fashion of the day, and very much like the Chessepot, differing, however, in certain details.

AN address with over 300 signatures has been transmitted by the clergy of Lithuania to the Governor of that province to be forwarded to St. Petersburg. The subscribers declare, in moderate language, that, under no circumstances, will they adopt the Russian tongue in their religious ceremonies. The Bishop of Zytomir, Mgr. Borowski, has intimated the same refusal.

MUCH has been said of late years of a very prolific breed of sheep coming, some from Russia and others from China. There are several specimens at present in the Zoological Garden in the Bois du Boulogne—notably two Chinese sheep (one of which has already produced nine lambs in the course of the year) having at the present moment one four and the other three young ones at its side.

A MEETING has been held in Brussels of the creditors of the International Agricultural Credit Company. The capital of this establishment was originally announced as 100,000,000fr, and 45,331,000fr, was stated to have been subscribed. The report of the persons appointed to examine the actual state of affairs shows that the debts incurred amount to 57,000,000fr., to meet which the only available funds are a sum of 107,287fr.

BORIS SCHEEL is at the present time the leading operatic writer in Russia. His three-act opera, "The Demon," is very highly praised. The story is founded upon a very old Caucassian legend of the dualism between Heaven and Hell, which is dramatically effective. Tamara and the Demon are contrasted with each other like Ormuz and Ahriman in the neighboring land of Persia, whence the legend no doubt formerly found its way into the Caucasus.

THE *Pungolo*, of Naples, mentions a strange suicide committed at Gaeta. "A sergeant named Comolli, a young man of excellent conduct, went to the building where the artillery was kept, and, lighting the fuse of a loaded cannon, placed himself in front. He was blown literally to atoms, his head and feet alone being afterward found. The cause assigned was, as stated in two letters, one to his father and one to his captain, extreme dislike of military life.

ABOUT thirty years ago Thorwaldsen, the great Danish sculptor, had nearly finished, in Rome, a splendid white marble statue of Physche, when one day burglars broke into his studio and carried off the statue, which was valued at ten thousand scudi. All the efforts of the papal police to discover the perpetrators of this bold theft were unavailing; but the other day a German painter found the statue hidden under the roof of a building which he had rented. It was wholly uninjured.

FROM time to time, says the last number of the *Pall Mall Gazette*, a rumor goes through the press of certain lost portions of Livy having been discovered somewhere or other. If we remember rightly a recent novel of Gustav Freytag turns upon this incident. Now, however, it seems that a real MS., containing not a [illegible] Fourth Decade, was discovered a few days ago in the Petro Pauline Library at Leignitz, in Silesia, by the Librarian and a Professor of the Gymnasium. It may well be that this is one of the many MSS. of Livy which were still extant in the fifteenth century, and which were unaccountably lost after the publication of the "Editio Princeps," in Rome, in 1849. We may remind our readers, to save them the trouble of looking up their "Smith," that out of the 142 books (divided into decades), only thirty, with the largest portions of five more, now survive, embracing the period from 201 to 167, and that among the fragments imbedded in other works, Livy's "Character of Cicero" is conspicuous. There is no reason to doubt the genuineness of this discovery.

**Dickens.**

Charles Dickens—Died at his residence, Gads Hill, Kent, Thursday, June 9th, 1870, aged 58 years.

"Dead, your Majesty. Dead, my lords and gentlemen. Dead, Right Reverends and Wrong Reverends, of every order. Dead, men and women born with Heavenly Compassion in your hearts. And dying thus around us every day."—[Bleak House, Chapter 47.

"The golden ripple on the wall came back again, and nothing else stirred in the room. The old, old fashion. The fashion that came in with our first garments, and will last unchanged until our race has run its course, and the wide firmament is rolled up like a scroll. The old, old fashion—Death! O thank God, all who see it, for that old fashion yet of immortality! And look upon us, angels of young children, with regards not quite estranged when the Swift River bears us to the Ocean."—[Dombey, Chapter 17.

"The spirit of the child, returning, innocent and radiant, touched the old man with its hand and beckoned him away."—[Chimes, 2 quarter.

"The star had shown him the way to find the God of the poor; and through humility, and sorrow, and forgiveness, he had gone to his Redeemer's rest."—[Hard Times, Book 3, Chapter 6.

"A cricket sings upon the hearth, a broken child's toy lies upon the ground, and nothing else remains."—[Cricket on the Hearth, Chirp 3.

"I felt for my old self as the dead may feel if they ever revisit these scenes. I was glad to be tenderly remembered, to be gently pitied, not to be quite forgotten."—[Bleak House, Chapter 45.

"From these garish lights I vanish now forevermore; with a heartful, grateful respectful, and affectionate farewell—and I pray God bless us every one."—[Last Reading, London, March 6, 1870.

"Lord, keep my Memory Green!"—[Haunted Man, Chapter 3.

"'Now,' he murmured, 'I am happy.' He fell into a light slumber, and waking smiled as before, then spoke of beautiful gardens, which he said stretched out before him, and were filled with figures of men, women and many children, all with light upon their faces, then whispered that it was Eden—and so died."—[Nickleby, Chapter 58.

—"died like a child that has gone to sleep."—[Copperfield, Chapter 0.

—"and began the world—not this world, O, not this. The world that sets this right."—[Bleak House, Chapter 65.

—A number of additional arrests have been made of persons on suspicion of being concerned in the murder of two girls on Saturday last, near Indianapolis, but on examination they were allowed to depart. The Mayor of Indianapolis received a telegram from the Chief of Police of Dayton announcing the arrest of two negroes supposed to have been concerned in the crime. Another arrest was made last night of a man named John B. Gattenberg, who lived near where the murder of the girls was committed. He waived an examination before the Mayor and was sent to jail. Several marks of bites of teeth were found on him, and other circumstances connected with his actions lead to the belief that he is guilty.

—The *demi monde* had a sylvan soiree and *dansante* Tuesday afternoon and evening in Elm Park, New York city. Over two thousand men and women were present—including several prominent politicians, a few leading lawyers and one or two judges.

**A Reception of the Olden Time.**

It is remembered by a lady, an intimate friend of Mrs. Madison, that this is not the first time that a delegation of Indians has been feasted in the state dining-room. During Mr. Madison's incumbency of the heavy paternal honors, chiefs and their squaws, from two tribes of Indians, it is thought Osages and Cherokees, came to Washington. Mr. and Mrs. Madison invited them to dine, and had prepared a grand feast, to which, however, no outsiders were asked. Among the women was a young widow whose husband had died *en route*. The charge of intense coquetry is well remembered against her, and that she was able to attend as well to the substantial side of life as to the sentimental is proved by her eating an entire chicken at the great dinner party. Another of the women was a young bride whose husband was jealous of her, and was on the watch lest she should receive notice from any other than himself. So roughly did he treat her in consequence of his suspicious nature, that one morning when she was at the White House with the party, she fainted and fell upon the floor, and the stately Mrs. Madison knelt beside her, bathing her temples with cologne until she recovered. She did not long survive to endure her husband's unkindness, but died soon after leaving Washington, and the widow married near the same time. After the dinner party above mentioned the chiefs executed a war dance at the request of Mr. Madison, which took place in the area below the White House, and some of the fashionable young ladies of the capital were invited to witness the performance. Afterwards these young people danced in the presence of the Indians in the hall of the Executive Mansion, to the music of the Marine Band, and this was the first time there ever had been any dancing within those walls.

**The Mammoth Cave.**

Stephen, the famous guide at the Mammoth Cave, used to say that more visitors came from Europe to view that subterranean wonder, than from all parts of the United States combined. Thousands of Americans go into ecstasies over the Rhone and Danube, who never saw the beauties which line the Upper Mississippi from St. Louis to St. Paul, or the strange loveliness of "the coast" from Bayou Sara to New Orleans. The great attraction for hungry people in Pittsburgh, is the Continental, next door below the Postoffice, Fifth avenue. If there is anything that will tempt the appetite it is spread upon the board at this favorite restaurant every day. Strangers in town who wish to get a good meal should follow the crowd to Holtzheimer's.

**How to Look Young—Sixteen.**—Don't paint or use vile Hair Restorers, but simply apply Hagan's Magnolia Balm upon your face, neck and hands, and use Lyon's Kathairon upon your hair. The Balm makes your complexion pearly, soft and natural, and you can't tell what did it. It removes freckles, tan, sallowness, ring-marks, moth-patches, etc.; and in place of a red, rustic face, you have the marble purity of an exquisite belle. It gives to middle age the bloom of perpetual youth. Add these effects to a splendid head of hair produced by the Kathairon, and a lady has done her best in the way of adornment. Brothers will have no spinster sisters when these articles are around. T-TH-S
